

For Immediate Release**HENRY SCHEIN MEDICAL SYSTEMS LAUNCHES MICROMD EMR *EASY*****New Application Provides Core Functionality of a Traditional EMR at an Affordable Price**

Boardman, Ohio – October 21, 2008 – Henry Schein Medical Systems, a provider of mature and cost-efficient practice management and electronic medical records (EMR) systems, today announced the release of MicroMD® EMR *Easy*. The new release offers physician practices the core functionality of EMR systems with minimal upfront expenditures and training time.

“Our goal is to help physicians, who may be tentative about implementing an EMR, access a user-friendly, scaled-down EMR that will provide them with some of the biggest benefits of a traditional system without the risk of a full-scale implementation,” said Ajit Kumar, president and CEO of Henry Schein Medical Systems.

MicroMD EMR *Easy* enables physicians to move toward a paperless workflow while improving patient care. The new system will include functionality such as:

- e-Prescribing to streamline prescription writing and refills while improving patient safety;
- e-Superbill to enter the proper assessment and procedure codes during the patient encounter streamlining the billing process; and
- Phone Messaging to manage messages and memos electronically and incorporate patient-related messages into the appropriate patient chart.

MicroMD EMR *Easy* can be upgraded to the full-featured MicroMD® EMR system, which enables physicians to create and maintain complete medical records and access a wide range of features for streamlined clinical documentation.

To learn more about MicroMD EMR *Easy* and Henry Schein Medical Systems’ other software applications, visit booth #509 at the Medical Group Management Association annual conference, Oct. 19 to 22 in San Diego.
