Healthcare

Revenue Cycle Management

Improve cash flow, eliminate manual processes & speed up patient payments

Integrated Payments with MicroMD PM

Eliminates user errors like double billing a patient because it posts the payment directly into the MicroMD ledger automatically, every time

Online Bill Pay with eStatements

Fully integrated into MicroMD eStatements, online statement generator & bill pay tool enabling your patients to pay their medical bills online anytime, quickly, and securely

Online Patient Payments

Provide your patients with an easy convenient way to pay their bill online and minimize backend manual payment processing

Get Paid Faster!

73% of physicians report it takes at least one month for patients to make payments

Shift in consumer behavior towards digital payments

The Covid-19 Tipping Point for Digital Payments

Worldwide:

- 500 million **Apple Pay** users
 - 207 million **Netflix** subscribers
 - 200 million **Amazon Prime** members
- ✓ Each of these players **require customers to save a Card-on-file (COF)** for one-time and recurring purchases

Tips to Getting Paid Faster:

- 1) **Collect payments at time of service** whenever possible
- 2) **Become a Card-on-file (COF) influencer** and reap the benefits to help address your patients' digital payment needs
- 3) **Set up Payment Plan Options** for patients to **automatically bill** Card-on-file (with your patient's permission of course)
 - Payments are automatically posted back into the patient's account in MicroMD

Contactless EMV - Payments Device

Protect your patients and your practice

Ingenico Lane 3000

- Accept all major brands: Visa | MasterCard, Discover, Amex
