

Cost and Limitations of Certified Health IT

There are no known limitations that a user may encounter while implementing and using this Health IT Module's capabilities, whether to meet meaningful use objectives and measures or to achieve any other use within the scope of the health IT's certification.

This certified product-version requires costs associated with implementing and include a one-time cost associated with training and yearly maintenance charges associated with the Henry Schein Secure Chart patient portal and direct transmissions using Surescripts CIN.

| Capability | Description of Capability | Costs or Fees <i>Types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of the implementation or use of the capability - OR- in connection with the data generated in the course using the capability</i> |
|---|--|---|
| Interface connections to Immunization Registries, Health Information Exchanges, Public Health Agencies, and other care settings 170.315 (b)(1), (f)(1), (f)(2), (f)(4) | HIEs allow for the exchange of health information across organizations and care settings. Registries allow the electronic transmission of immunization data and other health related data to state and health organizations. | One-time fee for establishing the interface. Ongoing monthly maintenance fee per interface |
| Electronic Prescribing 170.315 (b)(3) | Facilitates the secure electronic transmission of prescription information between physicians and pharmacists | Ongoing monthly licensing cost per provider |
| Henry Schein Secure Chart (Patient Portal) 170.314 (e)(1), (e)(2), (e)(3) | Provides patients and office staff a website containing a number of easy- to-use features that will save time for both patients and office staff, including patient messaging, keeping patients up to date on their health status, streamlining patient forms and requesting appointments. | One time setup and training fee. Ongoing monthly cost per provider. |
| Application Access 170.315 (g)(7), (g)(8), (g)(9), (g)(10) | Capability to utilize standard APIs to exchange health information between organizations | One-time fee for establishing the interface. Ongoing monthly maintenance fee per interface |
| Direct Messaging 170.315 (h)(1) | Allows for the secure sending of direct messages from provider to provider and practice to practice. | One time setup fee. Ongoing monthly cost per direct address. |
